## Full-Time Software Engineer

- As a Software Engineer at Microsoft, you will develop innovative software solutions and collaborate with stakeholders to create maintainable code that meets user requirements while ensuring quality and performance.

## Software Engineer Intern

- As a Software Engineering Intern at Microsoft, you will collaborate with diverse teams to develop innovative software solutions, applying your programming skills and passion for product quality.

## Technical Program Manager Intern

- As a Technical Program Manager Intern at Microsoft, you will design product architecture and develop innovative solutions while driving continuous improvement in quality and performance for millions of users worldwide.

## Product Manager Intern

- As a Product Manager Intern at Microsoft, you will define the product vision and strategy by understanding customer needs and market opportunities while driving the product roadmap to achieve key performance metrics.

## Explore Program Intern

- As an Explorer Intern at Microsoft, you will immerse yourself in the product development cycle—designing, building, and ensuring quality—while collaborating with peers to gain valuable insights into software engineering, product management, and technical program management. This unique opportunity fosters hands-on experience, problem-solving skills, and networking in a supportive and inclusive environment, specifically for students graduating in 2027.
